

Human Services Professions at Montgomery Blair High School

PEOPLE HELPING PEOPLE!

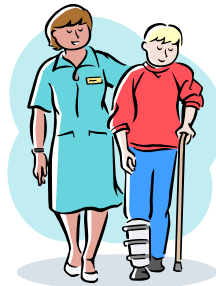

In today's multicultural society, students who have the heart, mind, and desire to serve their community should be provided with the skills to meet human needs through an interdisciplinary approach. This academy promotes opportunities for students to identify, analyze, and propose solutions for a variety of service professions, including those dealing with child welfare, education, and health and fitness. Providing essential human services, especially to those who are least able to help themselves, is the mission of all human services professionals.

Join the team!
