

# Academy of International Studies

## Recommended Program Planner

The International Studies Academy is designed for students who wish to tear down institutional and language barriers and rebuild cooperative and multicultural systems in our emerging global society. Students will develop an understanding of the roles of political power, law, economic development, language, culture, and religion in the shaping of a multicultural world.

This is a sample planner that may be tailored to meet a student's individual needs. Students should work with their counselor to create a successful four-year plan. All students must take prescribed English, math, science, social studies, and other courses required for a Maryland high school diploma.
